

LANKE NAYAN VENKATA UDAYA SANKAR

Vijayawada, Andhra Pradesh

☎ +91 7794972936 · ✉ Invusankar@gmail.com · 🔗 [LinkedIn](#) · 🌐 [Portfolio](#) · 🐙 [GitHub](#)

PROFESSIONAL SUMMARY

Graduate Engineer with strong hands-on experience in Python, SQL, MySQL, HTML, CSS, and Object-Oriented Programming (OOP). Proficient in building database-driven software applications, writing optimized SQL queries, implementing CRUD operations, and delivering clean, well-documented code through real-world academic projects. Experienced in relational database design, data validation, debugging, and version control using Git and GitHub. Holds published IoT research and industry internship experience. Strong analytical thinker with proven problem-solving, collaborative teamwork, and continuous learning skills. Actively seeking Junior Python Developer, Software Engineer, or Data Analyst roles in a fast-growing technology team.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Technologies: HTML, CSS, Responsive Web Design

Database & Data Management: MySQL, SQL Queries (SELECT, INSERT, UPDATE, DELETE, JOIN, GROUP BY, Aggregations, Subqueries), CRUD Operations, Relational Database Design, Data Modelling, Data Validation, Data Integrity, MySQL Workbench

Version Control & Tools: Git, GitHub, VS Code, MySQL Workbench

Core Concepts: Object-Oriented Programming (OOP), Database Management Systems (DBMS), Software Development Life Cycle (SDLC), Debugging, Problem Solving, Clean Code Practices, Technical Documentation

Platforms: Windows, GitHub, MySQL

Behavioral Competencies: Attention to Detail, Adaptability, Collaborative Teamwork, Continuous Learning, Analytical Thinking, Self-Motivation

PROJECTS

Student Management System

Python, Tkinter, MySQL | 2026

- Designed and developed a full-stack Python desktop application using OOP principles and modular architecture to manage 100+ student records with a clean, interactive GUI.
- Implemented complete CRUD operations with MySQL database integration; engineered optimized SQL queries (SELECT, INSERT, UPDATE, DELETE, JOIN) reducing data retrieval effort by ~70%.
- Built robust input validation, error handling, and data integrity checks ensuring application reliability and consistent data quality.
- Produced structured technical documentation covering database schema, data flow architecture, and module design for long-term maintainability.

Portfolio Website

HTML, CSS | 2026

- Built and deployed a fully responsive personal web application at venkatlanke.github.io/portfolio using semantic HTML and CSS best practices, ensuring cross-device accessibility.
- Applied structured UI design and responsive layout techniques (Flexbox, media queries) to deliver consistent user experience across desktop and mobile platforms.

IoT Based Automatic Door Unlocking System (ESP32-CAM)

Embedded C, ESP32-CAM, IoT | 2024

- Engineered a real-time automated security system integrating face recognition, sensor data processing, and wireless communication logic – demonstrating end-to-end system development, algorithmic thinking, and debugging skills.
- Executed systematic testing and performance optimization ensuring hardware-software reliability under real-world conditions.
- Peer-reviewed research published: doi.org/10.5281/zenodo.10851872

INTERNSHIP EXPERIENCE

Entuple Technologies | IoT and Embedded Systems Trainee

2024

- Trained in IoT fundamentals, ESP32-based application development, sensor interfacing, and automation in a professional engineering environment, applying clean coding, debugging, and documentation best practices.
- Collaborated with cross-functional teams on real-world system integration tasks, building professional teamwork, problem-solving, and adaptability competencies.

EDUCATION

Koneru Lakshmaiah University (KL University), Vijayawada, AP

2025 – 2027 (Expected)

M.Tech in Electronics & Communication Engineering (Embedded Systems)

CGPA: 8.64

Seshadri Rao Gudlavalleru Engineering College, Gudlavalleru, AP

2020 – 2024

B.Tech in Electronics & Communication Engineering

CGPA: 6.89

CERTIFICATIONS

- Python Full Stack – Version IT
- Workshop on Artificial Intelligence & Machine Learning – APSSDC
- CCNA: Introduction to Networks – Cisco
- IoT from Ground Up – Entuple Technologies
